Lucknow, Uttar Pradesh, India | +91-8707880288 | hansikasrivastava24@gmail.com | [LinkedIn](#)

EDUCATION

Vellore Institute of Technology

Sept 2022 – Sept 2026

B.Tech in Computer Science and Engineering, CGPA: 8.46

EXPERIENCE

Tech & Growth Intern

July 2026 – Present

NoobSync Innovations

Remote

- Researched business needs and independently owned the build of a WhatsApp Business automation (Meta Cloud API, self-hosted n8n) for the company's website to capture inbound leads — collaborating cross-functionally with a multi-person engineering team to align shared CRM integration standards
- Researched content trends, audience interests, and platform best practices to shape a data-informed growth strategy, then promoted 10+ services and campaigns through curated LinkedIn content — driving a 13,786% follower increase (7 to 972) within 2 months
- Independently scoped, researched, and implemented new tools and workflows from scratch to deliver a production-ready solution end-to-end within a defined project timeline

Tech Intern

Jul 2025 – Sep 2025

Twivios Technologies Pvt. Ltd.

Remote

- Led a 3-person team through UI/UX delivery, setting priorities and reviewing progress while personally coding 10+ product pages to ship accurately and on time
- Prepared and presented investor-facing presentation decks, communicating product progress, milestones, and roadmap updates directly to investors in clear, accessible language
- Partnered with design and product teams to standardize shared workflows, cutting average sprint delivery time by 30% on subsequent releases
- Owned quality assurance across every release cycle, testing and reviewing each design before launch to catch issues early and maintain consistent product quality

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – [View Credential](#)

Sept 2025

SKILLS

Soft Skills: Leadership, Cross-team Collaboration, Communication, Critical Thinking, Research, Creativity

Tools: Microsoft Excel, PowerPoint, Power BI, Google Docs, Notion, Figma, n8n, ChatGPT, Claude, Codex, Copilot, Gemini

Tech: Web Development (MERN Stack), Python, C++, SQL

PROJECTS

End-to-End Customer Trends Analysis | *SQL, Python, Power BI* | [GitHub](#)

Jan 2025

- Executed a complete data analytics workflow using Python for data cleaning, transformation, and exploratory data analysis (EDA) on a large retail dataset
- Utilized advanced SQL queries to analyze customer behavior, perform customer segmentation, and identify key factors influencing purchasing patterns and brand loyalty
- Designed and delivered an interactive Power BI dashboard to visualize trends and convert analytical insights into actionable business recommendations

Scribiq | *MongoDB, Express.js, React.js, Node.js, Tailwind CSS, Upstash Redis, Gemini API* | [GitHub](#)

Dec 2025

- Built an AI-assisted note-taking app that offers real-time writing suggestions, reducing users' note drafting time
- Owned the project independently from concept to launch, adding safeguards against AI feature overuse and designing a clean, consistent interface for a smooth user experience
